Kid ETERNITY

Given immortal powers when he was called from earth as a youth, **KID ETERNITY** can command dead heroes from the past to help in his battle against crime! He fights as a mortal youth or as an invisible spirit ... so long as his jolly old companion, **MR. KEEPER**, is along ... by saying the magic word, **ETERNITY!**

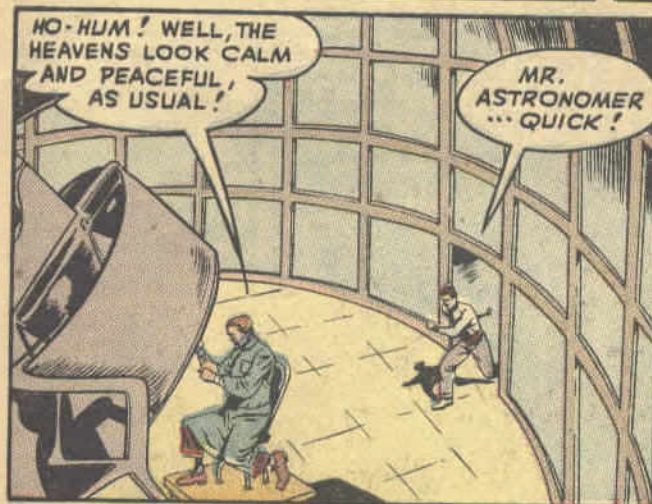

When raiders from space attack the earth... and almost conquer it... **Kid Eternity** faces one of his most baffling encounters! The fiendish men from **Mars** fight with a dreadful, paralyzing weapon, throwing the world into panic!
